

CLICK-BY-CLICK DESK REFERENCE

New Sale Quick Start

Use this sheet after signing in. The customer always enters their own card on Stripe.

OPEN NEW SALE
<https://citybeatmag.co/en/admin/sales/new>

Developer Control: click the bright + **NEW SALE** button.
Sales account: click **DASHBOARD**, then use the **New sale** form.

STEP	CLICK / ENTER	RESULT
1	Select Product	Choose the exact product and variation. Read the displayed price and billing term.
2	Set up a directory sale	Choose an existing listing or switch to New business. Select a category or type a correct new category.
3	Enter the essentials	Business name and client email are required. Phone is optional but needed for Text.
4	Review the product card	Confirm the customer benefit, price, and whether it is recurring or one-time.
5	Click Create checkout	Stripe creates one order-specific payment link. Wait for Checkout ready.
6	Read it back	Confirm customer name, product, exact price, and billing cadence before sending.

HAND OFF THE PAYMENT

BUTTON	USE IT WHEN	WHAT HAPPENS
Open	Customer is with you and can use the same device.	Opens the secure Stripe checkout.
QR	Customer has a second device in person.	They scan the live order-specific QR shown in the handoff panel.
Email	Phone or remote sale.	CityBeat emails the order-bound Stripe link to the recorded customer email.
Text	Customer gave a phone number and permission.	CityBeat sends automatically when configured; otherwise your texting app opens with the message ready and the link copied.
Copy	Any approved channel or backup.	Copies the same secure checkout link.

BEFORE THE CUSTOMER PAYS

If any detail is wrong, click Correct details and create a fresh checkout. Never reuse a link from another customer or another order.

AFTER STRIPE CONFIRMS PAYMENT

Payment opens the customer brief

The private wizard asks only for the purchased product, autosaves, and can be resumed for 30 days. No customer account is required.

STEP	CLICK / ENTER	RESULT
7	Customer completes Stripe	They enter their own card. Recurring products save it securely and renew automatically.
8	Open the fulfillment brief	After payment, Stripe returns the customer to the private CityBeat product wizard.
9	Collect the order details	The customer enters copy, links, images, dates, and other product-specific information.
10	Submit for review	A paid, complete brief creates a staff-review record. It does not publish incomplete material.
11	Check Recent orders	Confirm Payment, Billing, Brief, Fulfillment, Discount, and Commission status.
12	Click Start next sale	Clear the previous customer and begin with a new order.

WHAT EACH CUSTOMER BRIEF COLLECTS

PRODUCT	MAIN INFORMATION REQUIRED
Directory	Category, description, address, hours, website, social links, logo, cover, and gallery.
Job	Title, category, employment/workplace type, location, pay, benefits, description, qualifications, and application details.
Event	Dates, time zone, format, venue, ticket link, price, accessibility, organizer, description, and artwork.
Advertising	Objective, dates, destination link, copy, call to action, logo/artwork, sources, and approval contact.
Custom	Manager-approved deliverable, goal, timing, destination, assets, and approval contact.

FINAL CHECK

BEFORE	PAYMENT	AFTER
☐ Right customer ☐ Right product ☐ Exact price/term ☐ Consent to email/text	☐ Customer enters card ☐ Stripe page matches offer ☐ Receipt or success confirmed	☐ Brief submitted ☐ Status is In Review ☐ Follow-up explained ☐ Start next sale

STOP AND CORRECT

Pause if the product, price, recurring term, customer, availability, or deliverable is unclear. Confirm with management, then create a new checkout. Accuracy prevents refunds and protects trust.

Customer card data stays with Stripe. CityBeat staff should never request, record, photograph, or type a card number.
